ABOUT

Our family has been creating unique products for over 25 years. We are proud to say that our products are part of celebrations and family events each and every day. We started as a father and son working together in a California garage to make ideas come to life and we spend each day ensuring that we hold true to the same pride in all our products that was felt with the introduction of the original Cork Pop cork extractor.

We strive to continue to introduce innovative products that not only contribute to our success, but are products that more than 3,000 retailers across the country can offer to help their family business succeed.

We are honored to be able to point to successful items in our line and say, with great pride, that the patent is held by Bill Federighi. He is present in our facility while items such as the original Cork Pop and best-selling vinOair are manufactured. We have made a commitment to produce as many of our products in-house as possible – and you will find a special symbol throughout our catalog indicating a product that is “Proudly Made in the USA”. We are focused on bringing manufacturing “back home” and hope that you will share in our pride when you offer these products for sale in your business.

“Great items are the basis of our company – but it is our fierce commitment to customer service that has made our company successful. We are not just selling a cork remover – we are maintaining a family tradition of pride and quality workmanship”

Thank you for your continued support.

Bill and Susan Federighi

CORK POPS LEGACY

- Built-in 4 blade foil cutter
- Slightly longer graphite coated needle
- Patented easy cork release feature

The Cork Pops Legacy Wine Opener is a wine opener that puts fun into removing the cork from a bottle of wine. The Legacy Wine Opener uses a low-pressure inert gas cartridge to gently pop the cork from a wine bottle without affecting the taste of the wine or harming the environment. With the Cork Pops Legacy Wine Opener simply insert the needle straight down through the cork, press once and the cork pops out. The Legacy by Cork Pops is a must have wine accessory for every wine enthusiast.

Our Mission Statement

Our mission: to maintain a family tradition of pride and quality workmanship. We built our company in a manner to ensure not only our success, but the success of our customers. We don't sell products – you can buy a corkscrew from a 1000 different companies. What we sell is customer service, pride and quality. Here are the principles of how we live that every day:

Our Products

It has always been, and will always be, about quality. We strive to ensure that all materials are ethically sourced, and that we are not just buying materials. Our investments in factories and the employees of the factories is not just about a product, but about improving the lives of the people who contribute to our success. This is an ongoing goal and our work is never done.

Our Partners

We call the parties involved in the manufacturing, marketing, shipping and use of our products our partners, because we are not just a manufacturing company – we are a family. Together, we embrace diversity to create a place where each of us can be ourselves. We always treat each other with respect and dignity, and we hold each other to that standard. We create products that are used in the celebrations and events of life, and we are committed to providing products that will not only perform the design function, but will be part of building memories. We start with the promise of a perfectly made, quality item, but our work goes far beyond that. It is really about joy, friendship and the human connection.
